Minor Area Paper Approval

One of the Department's PhD requirements is a Minor Area paper:

"...by their seventh semester students must ... write a paper in their Minor area of specialization."

Students can write this paper while registered for LING 896, BUT THIS IS NO LONGER REQUIRED. The paper still must be prepared under the supervision of a member of the faculty. Once the paper is completed to the satisfaction of the supervising faculty member, a copy of the paper, with this form attached, must be filed in the Department headquarters.

Student's name _____

Title of paper _____

Supervising faculty member name _____

Signature _____ Date _____

Graduate Director signature _____ Date _____
